Carla,

Is there anything more recent than these draft cmts?

Susan

I would like to send these to FMC by Thurs. AM, so if you could get me any comments by COB Wed, I would appreciate it.

Feel free to call if you have any questions.

Thanks.

Subject: SBT May 28 Comments Post Closure Plan
Attachments: SBT May 28 Comments Post Closure Plan.docx

Good afternoon Carla, please find attached a copy of the Shoshone Bannock Tribes comments on Section 3 of the RCRA Post Closure Plan. Two areas the Tribes need to stress their concerns about the current proposal deals with the protection of both workers and emergency responders. We fully understand that this is an OSHA requirement which is not a regulation EPA enforces but we feel it is extremely important to have it documented if for some unlikely reason an accident occurs then FMC will be fully liable for their actions.

The second area covers soil gas monitoring. In the Tribes opinion, everything on the earth today regardless of size, structure or geographic location is an essential component in maintaining a healthy environment. This includes the bacteria in the adjacent soils to the ponds which are being impacted. We must protect the environment as a whole and not simply the worker. We hope that EPA understands the importance of these components and will stress upon FMC these critical components in maintaining a healthy ecosystem.

Thanks for allowing us some additional time to generate our comments. We are looking forward to working with you in the future on this project and hoping to ensuring protection of human health and the environment.

Kelly C. Wright
EWMP Manager
Shoshone Bannock Tribes

Hi Susan –

I just found a later version of EPA's comments on FMC's PCP. I thought the version I had sent you was the most recent one. My apologies for the inconvenience.
